

Not Your Average Revenue Share.

At Side, we've always invested in the most highly skilled real estate professionals because we believe that's what best for agents, clients, and the entire industry.

Now, every member of the Side community can do the same with a first of its kind **Revenue Share Program** built around mentorship to create a collaborative community of the industry's best.

Connecting Like-Minded Leaders

Get Rewarded for the Connections You're Already Making

Revenue Share provides you with a new revenue stream you can use to grow your business, team, and even your community.

Grow Your Income as Your Referral Companies Grow

Unlike any other program on the market, Side's Revenue Share pays out on your referral's entire team with no caps. As the partners you refer grow their companies, your referral income grows too.

Increase the Quality and Reach of Your Network

When you add new, qualified partners to the Side Community, you'll benefit from their expertise, recommendations and referrals. You'll also have access to more off-market listings from boutiques nationwide.

“

There is no revenue share program like this in the real estate industry. Unlike programs that prioritize quantity over quality, Side's Revenue Share is designed to support top-producing agents and teams, formalizing the mentorship many of our agent partners already provide.

- Guy Gal, Co-Founder & CEO, Side

Designed to Incentivize Mentorship & Collaboration

REVENUE SHARE

How It Works

Find and Refer Qualified Partners

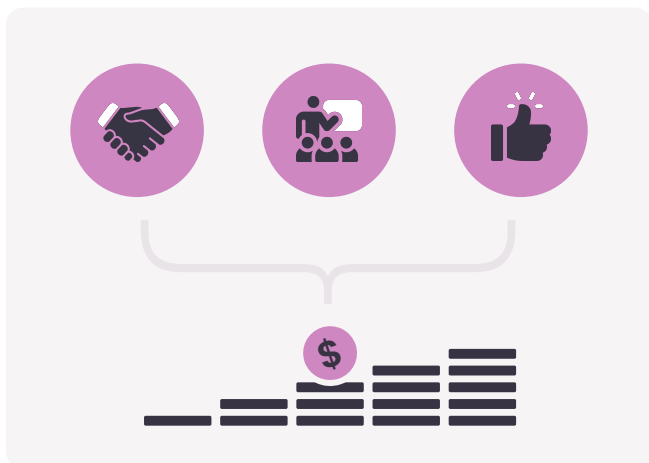

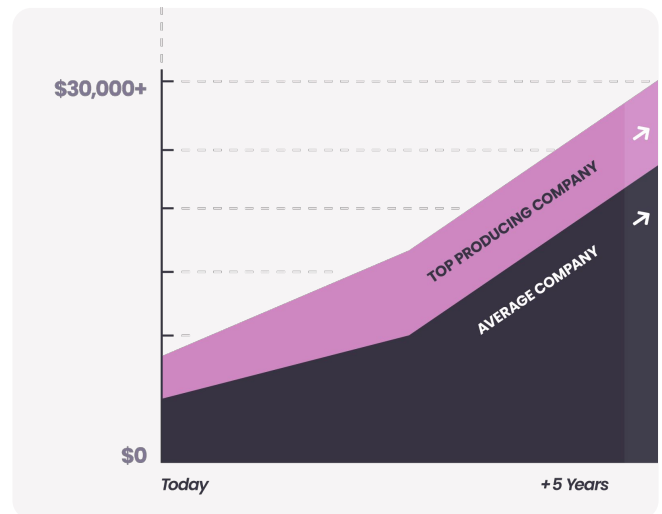

Get rewarded for referring partner-qualified agents to the Side Community.

- Find agents you know who make a minimum of \$30 million in production*.
- Make a warm introduction with a Side Ambassador
- Touch base with your referral and answer questions throughout the sales process.

Get a Percentage of What Side Makes

Revenue share is based on your referrals' current and future production.

- 10%** of Side's revenue from the entire referral company is shared between the referring associate and their Founding partner
- Revenue share is active while all parties are on the Side Platform.
- Payments are uncapped and sent quarterly.

Increase Your Payout over Time

As the new partner company grows, the payout that you make grows with it.

- Support referrals through the company setup
- Benefit from the growth of their businesses
- Recommend agents and client referrals

*Varies by market, other qualifications may apply.

** Payout percentage is subject to change.
